Introduction

This documents how you may use our logos in your publications.

General Guidelines

Before you use our logo we ask that you contact a member of staff first for permission. Resizing is allowed, however you must maintain the original aspect ratio of the logo. Wherever possible, please use the grey and blue version, and only use the all white version where not practical.

Colours

The hex colour codes used in our logos are as follows: **#0069BF (Blue)**, **#8E8E8E (Grey)**, and **#FFFFFF (White)**.

Image Download

You can download a zip folder with all of our logos [here](#).

Document Usage

This document is for flight simulation. It is not to be used for real world navigation. If you wish to have any additions or modifications made, please contact us at webmaster@czqm.ca.
